

**BEST AVAILABLE COPY****REMARKS**

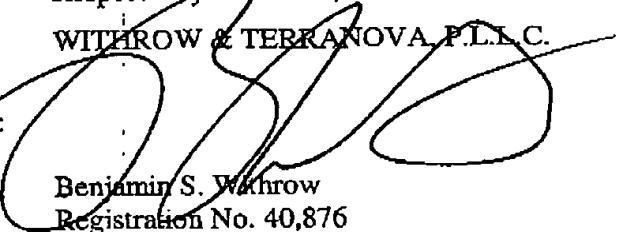

On Monday, January 31, 2004, the Examiner called Applicant's representative and suggested two Examiner's Amendments. The first Examiner's Amendment was to claim 4, changing the dependency of claim 4 from claim 2 to claim 1 since claim 2 had been canceled. The second Examiner's Amendment was in claim 28, to change the associated browser to the local browser so that the element had appropriate antecedent basis. Applicant authorized these Examiner's Amendments. However, in reviewing the claims for proper antecedent basis, Application discovered several other places where there might be questions as to the propriety of the antecedent basis for all the claim elements.

Applicant herein amends claims 1, 4, 10, 11, 15, 18, 22-25, 28 and 33-36 to correct antecedent basis, make the verb tense consistent, and otherwise tidy the claims. Likewise the two proposed Examiner's Amendments are shown. No new matter is added. Applicant requests entry of this amendment and allowance of the claims at the Examiner's earliest convenience.

Respectfully submitted,
